

Commitment & Quality Policy

HYGIMED SPA is aware of the importance of its activity specialized in

«Manufacture and distribution of sterile and Non-Sterile single-use Non-Woven Medical Devices intended for human medicine»

In recent years the local and international market has recorded a strong demand for non-woven medical devices for single use.

To this end, HYGIMED SPA has decided to put forward its experience and know-how by developing its activities and products.

Therefore our Quality Policy is declined in:

- Axe 01:** Comply with applicable Legal and Regulatory requirements and Other
- Axe 02:** Listening to and satisfying Stakeholders
- Axe 03:** Skills development
- Axe 04:** Increase of the production capacity
- Axe 05:** Diversification of market shares including export
- Axe 06:** Prevention of risks related to occupational health and safety
- Axe 07:** Improvement of the performance of the quality management system

To do this, the management of HYGIMED SPA undertakes to make available all the necessary resources to ensure the satisfaction of its interested parties, in compliance with the applicable regulations, and to conduct periodic management reviews.

To assist each structure in the implementation of the provisions cited above I invest each leadership of the two production units ALGER and ORAN of the authority necessary to pilot and ensure the performance of the quality management systems.
